RE: Letter of Support for Golf Programs Australia Inc.

To Whom It May Concern:

I write this letter in support of Golf Programs Australia Inc. (GPAI) in their endeavour to develop a dedicated golf facility to deliver Golf Program Australia's Specialty Golf Initiatives.

Golf Programs Australian Inc. have a standing relationship with Special Olympics Sunshine Coast to further opportunities in the sport of Golf for individuals living with an intellectual disability. This continued partnership will further the growth of Golf particularly in the Sunshine Coast region.

Special Olympics is a charity organisation that transforms the lives of children and adults with an intellectual disability through year round sports training and athletic competition in a variety of team and individual sports.

As a charity organisation, funding the use of venues for sport participation can be challenging, thus opportunities to partner with our local community groups to significantly reduce these costs greatly assist in the development of our sporting programs.

A facility such as the proposed dedicated golf facility will provide our athletes a place where they can learn, grow, train and compete on a regular basis.

Special Olympics Australia fully supports Golf Programs Australia Inc. in their endeavour and wishes them well.

Kind regards,

A handwritten signature in black ink, appearing to read 'T. Visscher', with a stylized, flowing script.
